SECTION 1: IDENTIFICATION

1.1. Product Identifier

Product Form: Mixture
Product Name: VIRWITE® POWDER (SERIES 300)
Product Code: VIRWITE®; This MSDS applies to Chemtrade’s VIRWITE® Powder (SERIES 300) Sodium Hydrosulfite products using a one or two letter prefix (A through Z) followed by a 3 digit numeric code (100 – 199).
Synonyms: Sodium Dithionite; Hydro; Sodium Hydrosulfite Powder; Hydro Powder; Sodium Hydrosulfite Powders & Blends; Sodium Sulfoxylate; Dithionous Acid; Disodium Salt

1.2. Intended Use of the Product
Use of the Substance/Mixture: Reducing Agent.

1.3. Name, Address, and Telephone of the Responsible Party
Manufacturer
CHEMTRADE LOGISTICS INC.
155 Gordon Baker Road
Suite 300
Toronto, Ontario M2H 3N5
For SDS Info: (416) 496-5856
www.chemtradelogistics.com

1.4. Emergency Telephone Number
Emergency Number: Canada: CANUTEC +1-613-996-6666 / US: CHEMTREC +1-800-424-9300 / Chemtrade Emergency Contact: (866) 416-4404
For Chemical Emergency, Spill, Leak, Fire, Exposure, or Accident, call CHEMTREC – Day or Night

SECTION 2: HAZARDS IDENTIFICATION

2.1. Classification of the Substance or Mixture
GHS-US Classification
Self-heat. 1 H251
Acute Tox. 4 (Oral) H302
Eye Dam. 1 H318
Aquatic Acute 3 H402
Aquatic Chronic 3 H412
Full text of hazard classes and H-statements: see section 16

2.2. Label Elements
GHS Labeling
Hazard Pictograms:

Signal Word: Danger
Hazard Statements:
H251 - Self-heating: may catch fire.
H302 - Harmful if swallowed.
H318 - Causes serious eye damage.
H402 - Harmful to aquatic life.
H412 - Harmful to aquatic life with long lasting effects.

Precautionary Statements:
P235+P312 - Keep cool. Protect from sunlight.
P264 - Wash exposed areas thoroughly after handling.
P270 - Do not eat, drink or smoke when using this product.
P273 - Avoid release to the environment.
P280 - Wear eye protection, protective clothing, and protective gloves.
P301+P312 - If swallowed: Call a poison center or doctor if you feel unwell.
P305+P351+P338 - If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310 - Immediately call a poison center or doctor.
P330 - Rinse mouth.
2.3. Other Hazards
Exposure may aggravate pre-existing eye, skin, or respiratory conditions.

2.4. Unknown Acute Toxicity (GHS)
No data available

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

3.2. Mixture

* An exemption was claimed under the Canadian Hazardous Materials Information Review Act. The registry number assigned to the claim is 9978. The filing date for the exemption was April 29, 2016 for those ingredients indicated.

The specific chemical identity and/or exact percentage of composition have been withheld as a trade secret [29 CFR 1910.1200].

Full text of H-phrases: see section 16.

SECTION 4: FIRST AID MEASURES

4.1. Description of First-aid Measures
First-aid Measures General: Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).

First-aid Measures After Inhalation: When symptoms occur: go into open air and ventilate suspected area. Obtain medical attention if breathing difficulty persists.

First-aid Measures After Skin Contact: Remove contaminated clothing. Drench affected area with water for at least 15 minutes. Obtain medical attention if irritation develops or persists.

First-aid Measures After Eye Contact: Rinse cautiously with water for at least 30 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get immediate medical advice/attention.

First-aid Measures After Ingestion: Rinse mouth. Do NOT induce vomiting. Obtain medical attention.

4.2. Most Important Symptoms and Effects Both Acute and Delayed
Symptoms/Injuries: Harmful if swallowed. Causes serious eye damage. In contact with water, releases gases which are toxic if inhaled (sulfur dioxide).

Symptoms/Injuries After Inhalation: Prolonged exposure may cause irritation. In contact with water, releases gases which are toxic if inhaled (sulfur dioxide).

Symptoms/Injuries After Skin Contact: Prolonged exposure may cause skin irritation.

Symptoms/Injuries After Eye Contact: Causes permanent damage to the cornea, iris, or conjunctiva.

Symptoms/Injuries After Ingestion: This material is harmful orally and can cause adverse health effects or death in significant amounts.

Chronic Symptoms: None expected under normal conditions of use.

4.3. Indication of Any Immediate Medical Attention and Special Treatment Needed
If exposed or concerned, get medical advice and attention. If medical advice is needed, have product container or label at hand.

SECTION 5: FIRE-FIGHTING MEASURES

5.1. Extinguishing Media
Suitable Extinguishing Media: Water spray, dry chemical, foam, carbon dioxide.

Unsuitable Extinguishing Media: Do not use a heavy water stream. Use of heavy stream of water may spread fire.

5.2. Special Hazards Arising From the Substance or Mixture
Fire Hazard: Self-heating; may catch fire.
VIRWITE POWDER (SERIES 300)

Safety Data Sheet

According to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

And According To The Hazardous Products Regulation (February 11, 2015).

Explosion Hazard: Product is not explosive.
Reactivity: Hazardous reactions will not occur under normal conditions.

5.3. Advice for Firefighters
Precautionary Measures Fire: Exercise caution when fighting any chemical fire.
Firefighting Instructions: Use water spray or fog for cooling exposed containers.
Protection During Firefighting: Do not enter fire area without proper protective equipment, including respiratory protection.

Other Information: Do not allow run-off from fire fighting to enter drains or water courses.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1. Personal Precautions, Protective Equipment and Emergency Procedures
General Measures: Keep away from heat, hot surfaces, sparks, open flames, and other ignition sources. No smoking. Do not breathe dust. Do not get in eyes, on skin, or on clothing.

6.1.1. For Non-Emergency Personnel
Protective Equipment: Use appropriate personal protective equipment (PPE).

6.1.2. For Emergency Personnel
Protective Equipment: Equip cleanup crew with proper protection.
Emergency Procedures: Upon arrival at the scene, a first responder is expected to recognize the presence of dangerous goods, protect oneself and the public, secure the area, and call for the assistance of trained personnel as soon as conditions permit. Ventilate area.

6.2. Environmental Precautions
Prevent entry to sewers and public waters. Avoid release to the environment.

6.3. Methods and Materials for Containment and Cleaning Up
For Containment: Contain solid spills with appropriate barriers and prevent migration and entry into sewers or streams. Use only non-sparking tools.
Methods for Cleaning Up: Clean up spills immediately and dispose of waste safely. Recover the product by vacuuming, shoveling or sweeping. Transfer spilled material to a suitable container for disposal. Contact competent authorities after a spill.

6.4. Reference to Other Sections
See Section 8 for exposure controls and personal protection and Section 13 for disposal considerations.

SECTION 7: HANDLING AND STORAGE

7.1. Precautions for Safe Handling
Additional Hazards When Processed: Dust may form a combustible dust hazard in air. Liberates toxic sulfur oxides gas when in contact with water. Catches fire spontaneously if exposed to air.
Precautions for Safe Handling: Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Avoid breathing dust. Keep away from heat, sparks, open flames, and hot surfaces. No smoking. Handle empty containers with care because they may still present a hazard. Do not get in eyes, on skin, or on clothing.
Handling Temperature: Avoid sources of heat above 122 °F (50 °C). 
Hygiene Measures: Handle in accordance with good industrial hygiene and safety procedures.

7.2. Conditions for Safe Storage, Including Any Incompatibilities
Technical Measures: Comply with applicable regulations. Maintain air gap between stacks/pallets. Proper grounding procedures to avoid static electricity should be followed.
Storage Conditions: Keep container closed when not in use. Store in a dry, cool place. Keep/Store away from direct sunlight, extremely high or low temperatures and incompatible materials.
Incompatible Products: Water, moisture, acids, bases, oxidizers, combustibles, flammable materials.
Storage Temperature: < 50 °C (122 F) Keep material dry.

7.3. Specific End Use(s)
Reducing Agent.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1. Control Parameters
For substances listed in section 3 that are not listed here, there are no established exposure limits from the manufacturer, supplier, importer, or the appropriate advisory agency including: ACGIH (TLV), AIHA (WEEL), NIOSH (REL), or OSHA (PEL).

8.2. Exposure Controls

**Appropriate Engineering Controls**: Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure. Ensure adequate ventilation, especially in confined areas. Ensure all national/local regulations are observed. Proper grounding procedures to avoid static electricity should be followed.

**Materials for Protective Clothing**: Chemically resistant materials and fabrics. Wear fire/flame resistant/retardant clothing.

**Hand Protection**: Wear protective gloves.

**Eye Protection**: Chemical safety goggles.

**Skin and Body Protection**: Wear suitable protective clothing.

**Respiratory Protection**: If exposure limits are exceeded or irritation is experienced, approved respiratory protection should be worn. In case of inadequate ventilation, oxygen deficient atmosphere, or where exposure levels are not known wear approved respiratory protection.

**Other Information**: When using, do not eat, drink or smoke.

---

**SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES**

9.1. Information on Basic Physical and Chemical Properties

**Physical State**: Solid

**Appearance**: Powder, white, free-flowing

**Odor**: Slight sulfur-like odor

**Odor Threshold**: No data available

**pH**: 6 - 10 [1% by weight solution at 68 °F (20 °C)]

**Evaporation Rate**: No data available

**Melting Point**: 300 °C (572°F) decomposes before reaching melting point

**Freezing Point**: No data available

**Boiling Point**: No data available

**Flash Point**: No data available

**Auto-ignition Temperature**: 250 °C (482°F) for sodium hydrosulfite powder

**Decomposition Temperature**: 70 - 151 °C (158 - 304°F) for sodium hydrosulfite powder

**Flammability (solid, gas)**: No data available

**Vapor Pressure**: No data available

**Relative Vapor Density at 20°C**: No data available

**Relative Density**: No data available

**Density**: 55 - 65 lb/ft³

**Solubility**: Water: 18 % @ 70 °F (21 °C)

**Partition Coefficient: N-Octanol/Water**: < -2.75 - -4.7 Log Pow (estimated) – for sodium hydrosulfite

**Viscosity**: No data available
**SECTION 10: STABILITY AND REACTIVITY**

10.1. **Reactivity:** Hazardous reactions will not occur under normal conditions.

10.2. **Chemical Stability:** Self-heating: may catch fire.

10.3. **Possibility of Hazardous Reactions:** Hazardous polymerization will not occur.

10.4. **Conditions to Avoid:** Direct sunlight, extremely high or low temperatures, and incompatible materials.

10.5. **Incompatible Materials:** Water, moisture, acids, bases, oxidizers, combustibles, flammable materials.

10.6. **Hazardous Decomposition Products:** In contact with water: liberates sulfur oxides. Sulfur oxides are toxic.

**SECTION 11: TOXICOLOGICAL INFORMATION**

11.1. **Information on Toxicological Effects**

**Acute Toxicity:** Oral: Harmful if swallowed.

12.4. Mobility in Soil
No additional information available

12.5. Other Adverse Effects
Other Information : Avoid release to the environment.

SECTION 13: DISPOSAL CONSIDERATIONS

13.1. Waste Treatment Methods
Waste Disposal Recommendations : Dispose of contents/container in accordance with local, regional, national, and international regulations.

Additional Information : Container may remain hazardous when empty. Continue to observe all precautions.

Ecology - Waste Materials : Avoid release to the environment. This material is hazardous to the aquatic environment. Keep out of sewers and waterways.

SECTION 14: TRANSPORT INFORMATION

The shipping description(s) stated herein were prepared in accordance with certain assumptions at the time the SDS was authored, and can vary based on a number of variables that may or may not have been known at the time the SDS was issued.

14.1. In Accordance with DOT
Proper Shipping Name : SODIUM HYDROSULFITE
Hazard Class : 4.2
Identification Number : UN1384
Label Codes : 4.2
Packing Group : II
ERG Number : 135

14.2. In Accordance with IMDG
Proper Shipping Name : SODIUM DITHIONITE (SODIUM HYDROSULPHITE)
Hazard Class : 4.2
Identification Number : UN1384
Packing Group : II
Label Codes : 4.2
EmS-No. (Fire) : F-A
EmS-No. (Spillage) : S-J
VIRWITE POWDER (SERIES 300)
Safety Data Sheet

14.3. In Accordance with IATA
Proper Shipping Name: SODIUM HYDROSULPHITE
Packing Group: II
Identification Number: UN1384
Hazard Class: 4
Label Codes: 4.2
Division: 4.2
ERG Code (IATA): 4L

14.4 In Accordance with TDG
Proper Shipping Name: SODIUM HYDROSULPHITE
Packing Group: II
Hazard Class: 4.2
Identification Number: UN1384
Label Codes: 4.2

SECTION 15: REGULATORY INFORMATION

15.1. US Federal Regulations
VIRWITE POWDER (SERIES 300)

NFPA Health Hazard: 3 - Materials that, under emergency conditions, can cause serious or permanent injury.

NFPA Fire Hazard: 3 - Liquids and solids (including finely divided suspended solids) that can be ignited under almost all ambient temperature conditions.

NFPA Reactivity Hazard: 1 - Materials that in themselves are normally stable but can become unstable at elevated temperatures and pressures.

Hazard Rating:
- Health: 3 - Serious Hazard - Major injury likely unless prompt action is taken and medical treatment is given
- Flammability: 3 - Serious Hazard
- Physical: 1 - Slight Hazard

Handle product with due care and avoid unnecessary contact. This information is supplied under U.S. OSHA’S “Right to Know” (29 CFR 1910.1200) regulations and Canada’s WHMIS regulations. Although certain hazards are described herein, we cannot guarantee these are the only hazards that exist.
