### Important

Our meeting will be held virtually (on-line) this year due to the COVID-19 pandemic and on-going concerns about in-person gatherings. We encourage you to attend the virtual meeting. You may vote on-line at the virtual meeting, or you may vote in advance of the meeting by proxy. Go to page 8 of our management information circular to find out how to vote.

## How to get a copy of this year's management information circular

If you are a registered unitholder or you have given us instructions to send you printed documents, your management circular is enclosed with this notice.

We are using the *notice and access* method to deliver our meeting materials (this notice, our management information circular and our 2020 annual financial statements, annual management's discussion and analysis and auditors' report) to non-registered (beneficial) unitholders for our 2021 annual and special meeting. Notice and access is a set of rules developed by the Canadian securities regulators that allows issuers to provide online access to materials instead of sending paper copies, reducing paper and mailing costs.

If you have not provided standing instructions to receive printed documents by mail, we have sent you this notification, along with either a proxy form or voting instruction form, so you can provide your voting instructions. **Please view the management information circular before voting.**
